PROFILE

I am an innovative Full Stack Developer with 3 years of extensive experience in crafting and enhancing web and mobile applications. My expertise in both front-end and back-end technologies ensures seamless project execution from concept to deployment. Having graduated from a vocational high school with a specialization in Software Engineering, I am currently advancing my knowledge by pursuing a degree in Computer Science.

I thrive in dynamic environments where I can apply my skills in coding, debugging, and developing user-centric solutions. My ability to quickly adapt and learn new technologies has enabled me to contribute effectively to my teams. I am passionate about continuous learning and am eager to bring fresh, innovative solutions to the companies I work with.
